1. Pharmaceutical Needs Assessment

Production of a Pharmaceutical Needs Assessment (PNA) is a statutory requirement for each local Health and Wellbeing Board (HWB) every three years or more frequently. Below you can find the latest PNA report for Southampton which was published in September 2022. (Note that although the 2013 regulations required the next pharmaceutical needs assessment to be published by 1 April 2022, this was amended to 1 October 2022 as a result of the ongoing response to the Covid-19 pandemic).

The PNA is key tool to inform the commissioning of essential, enhanced, and advanced pharmaceutical services from community pharmacies by NHS England and of complementary local services commissioned by the Public Health department of the local authority and by other local commissioners such as the Clinical Commissioning Group (CCG).

The NHS (Pharmaceutical Services and Local Pharmaceutical Services) Regulations 2013 set out the legislative basis for developing and updating PNAs. The National Health Service (Pharmaceutical and Local Pharmaceutical Services (Amendment and Transitional Provision) Regulations 2014 have been published to amend these regulations following a report published by the Joint Committee on statutory instruments. More recently, The NHS (Pharmaceutical and Local Pharmaceutical Services) (Amendment) Regulations 2016 were published.

The first PNA to be produced by the Southampton HWB was published on 1 April 2015 to comply with these regulations and a second PNA report was published on 1 April 2018, both are available in the resources section below.

2. Southampton PNA 2022

The Southampton PNA explains the different types of pharmacies and pharmaceutical services and details of the current provision of these in Southampton, which has 40 community pharmacies.

Assessment of the needs for pharmaceutical services in Southampton is underpinned by a wealth of demographic, economic and health data which is available in the supporting appendices in Part 2, (this can be accessed in the resources section below). The supporting information also includes a detailed consideration of inequalities and specific population groups.

The conclusion of this assessment is that, in Southampton, the number, distribution, and choice of pharmaceutical services meet the needs of the population and future needs within the lifetime of this PNA. Therefore, there is no identified need for improvements or better access to pharmaceutical services in the city.

3. Resources

3.1 Southampton PNA 2022

Available below is the main report of the Southampton PNA 2022 (part 1) and supporting information, in part 2. Also available are the results of the consultation on the PNA that ran during April and May 2022.

3.3 Changes to pharmaceutical services and supplementary statements

A supplementary statement is published to explain changes to the availability of pharmaceutical services, issued in accordance with Part 2; (6) 3 of the National Health Service (Pharmaceutical and Local Pharmaceutical Services) Regulations 2013. Supplementary statements are statements of fact; they do not make any assessment of the impact the change may have on the need for pharmaceutical services. Effectively, they are an update of what the pharmaceutical needs assessment says about the availability of pharmaceutical services. Below are the current supplementary statements for the PNA 2022, along with the guidance document used for the process in dealing with supplementary changes.

- [PNA 2022 - Change of address - Pharmacy Direct 355A Shirley Road SO15 3JD \(FVE30\)](#)

- [PNA 2022 - Process for dealing with supplementary changes](#)

3.4 Southampton PNA 2018

The regulations state that each HWB must publish a revised PNA within three years of its previous publications; the 2018 PNA was produced to satisfy this requirement. A full 60 day statutory consultation was conducted late 2017, largely ratifying the conclusions from the draft PNA. The final report was approved by the Southampton HWB and published on 1 April 2018.

[Southampton PNA 2018](#)

3.5 Pharmaceutical Needs Assessment 2015

A full 60 day statutory consultation on Southampton's first PNA was conducted late 2014 and the final report was ratified by the HWB and published on 1 April 2015. A supplementary statement was published as an update to the original PNA following a pharmacy consolidation which took effect on 1 September 2017. A copy of the full PNA, along with its appendices and supplementary statement are available below:
